To Whom It May Concern:

My husband and I have known Steve Holladay personally for fifteen years and have found him to be a man of exemplary character, vision, and an obvious love for the Lord. So when Steve presented his dream for the Ultimate Escape Ministry, we wanted to be a part of it from the beginning. Steve spoke with such knowledge and passion about his ideas for the ministry and the potential for impacting countless young lives that we knew God would bless his efforts.

In addition to prayer support, we have financially supported Ultimate Escape on a monthly basis for over two years as the ministry moved from a concept to a reality. During that time we have been kept informed of the workings of the ministry and Steve's progress in school. However, we had not had the opportunity to hear and see Steve present to one of his target audiences. Recently he was able to come and do two Sunday sessions for teens and parents of our congregation.

We have loved and believed in Steve for a long time, but I must say we did not fully realize just how good Steve would be in this ministry. Even though our expectations were high, his presentation far exceeded them. Steve managed to present some very sensitive yet vital information in a most professional manner. Both teens and parents in the audience were captivated and had nothing but praise for both Steve and the presentation.

Now that we have seen and heard Steve in his role for Ultimate Escape, it has solidified our belief that nothing but good can come from this ministry. The potential for freeing countless lives from bondage and impacting present and future generations is enormous. It is obvious to us that Steve will capably lead this ministry forward and in doing so, glorify God and save many young people from a life of destructive, addictive behavior. We feel privileged and blessed to be counted as a small part of this ministry.

Yours truly,
